Book Review: *The Immortal Life of Henrietta Lacks* by Rebecca Skloot  
**Monday, February 11, 11:00 a.m. - 12:15 p.m.**  
Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor black tobacco farmer whose cells - taken without her knowledge in 1951 - became one of the most important tools in medicine, vital for developing the polio vaccine, cloning, gene mapping, in vitro fertilization, and more. Henrietta’s cells have been bought and sold by the billions, yet she remains virtually unknown. All attendees are welcome to join what is sure to be a riveting discussion of the collision between ethics, race, and medicine; of scientific discovery and faith healing; and of a daughter consumed with questions about the mother she never knew. Thank you to the Book Review Chair Laurel Rosenberg.

Dine Around  
**Tuesday, February 12**  
The IADC invites attendees to dine together at some of the area’s best restaurants. A list of participating restaurants and sign-up sheets will be available onsite at the IADC Information Desk. Spots will be filled on a first come, first served basis. All costs associated with dinner as well as transportation to/from the restaurants will be the attendee’s responsibility. This is an opportunity to enjoy a night out with old friends while making new ones in the process!
