WELCOME TO BERMUDA

We are thrilled to invite you to join us from Saturday, July 9 to Thursday, July 14 at The Fairmont Southampton - Bermuda for our Annual Meeting. We are excited to be making a return visit! Our last Annual Meeting was held here in 2007. You will love Bermuda and love this location. You will be mesmerized by Bermuda's pink sands, crisp architecture, and relaxing atmosphere.

Our planning team has worked tirelessly to deliver an Annual Meeting that provides you and your guests with relevant and interesting educational offerings, signature IADC fellowship with member families, and opportunities to enjoy everything the island has to offer.

Our CLE presentations, organized by our CLE Program Steering Committee Chair Chris Kenney and his committee, will be stimulating and facilitate important discussions. The Open Forum on Sunday, July 10 will feature *New York Times* bestselling author Wes Moore who will chronicle his journey in discovering meaning in his work. Our other programs include topics such as drafting and enforcing arbitration agreements; the pros and cons of using animation in product liability cases; legal developments within the NCAA and how those may change college sports; and so much more.

A new component of this meeting is a one-day insurance program offering. The Insurance Bermuda Triangle Event is on July 12. Insurance CLE programming will be held in the morning at The Fairmont Southampton and afternoon programming will be held offsite at XL Catlin in Hamilton. Please see page 2 for more details about this great program.

Besides our programming line-up, Bermuda has many outdoor activities to enjoy. From snorkeling above shipwrecks to touring the Royal Dockyard to swimming with dolphins, it is all easily available. The IADC is working with a local tour company to offer a wide variety of activities for all. Further information for tours will be emailed to members soon.

As usual, our meeting will be filled with great social events including our *Island-Style* Welcome Reception, *Dancing in the Moonlight* Theme Party, and our *Pink Sands* Reception and Dinner Dance. Of course, we also have our customary morning walks and runs, book review, family games, and other receptions to provide you plenty of opportunities to experience signature IADC fellowship with friends and family.

We look forward to seeing you in July!

Construction Law and Litigation

SURETY IN THE 21ST CENTURY: EVERYTHING OLD IS NEW AGAIN

In the late 1980's and in the 1990's, lawyers involved in surety claims were very busy. But then, as with all things that go in cycles, things went quiet. So here we are in 2016. Those involved in the earlier files have now retired or moved on and people are again asking: What does a surety do? Is it insurance? How does a surety respond to contract warranties? Is it bound to the rules of ADR in the contract? This panel will provide answers to these questions and will discuss the roles of the surety (insurance company), the principal (contractor), and the obligee (owner) in the context of a construction project.

MONDAY, JULY 11

7:30 - 8:30 a.m.

Alternative Dispute Resolution/Business Litigation

DRAFTING AND ENFORCING ARBITRATION AGREEMENTS IN A SHIFTING LANDSCAPE

Arbitration can provide a forum for businesses to avoid litigating in unfavorable jurisdictions. However, arbitration agreements, particularly in the consumer arena, are under increasing attack. For example, the Consumer Finance Protection Board ("CFPB") recently released a 728-page study criticizing the use of arbitration agreements in consumer contracts. The CFPB claims that arbitration is a "rigged system" and that it can be more expensive than litigating in court. The CFPB also claims that consumers routinely win less and pay more in the arbitration setting. In light of this attack and the growing reluctance of the courts to enforce arbitration agreements, it is now more important than ever to draft enforceable arbitration agreements.

This presentation will focus on the drafting of arbitration agreements, including the potential AAA Appellate Rules, and will address alternatives to the AAA as an arbitration forum. It will also examine cases where businesses should not litigate the enforceability of arbitration agreements.

Speaker: *J. Chase Bryan, Watson & Jones, P.A., Jackson, MS USA*

MONDAY, JULY 11 CONTINUED

LEGAL JIU JITSU: HOW TO TURN THE TABLES ON THE PLAINTIFF BAR'S ADVERTISING JUGGERNAUT

This presentation will examine how the proliferation of plaintiffs-attorney advertising is affecting litigants and jurors perceptions and thus why courts should reconsider the extent to which plaintiffs-attorney advertising is admissible at trial. It will also cover topics such as the current state of legal advertising, how it has evolved over time, examples of outrageous legal ads, court rulings on the admissibility of lawyer advertising, how plaintiffs attorneys may “open the door” to the admission of lawyer advertising, and the modern resources available to track legal advertisements and then use them in litigation to the disadvantage of the plaintiffs firms that sponsor them, particularly in the mass tort environment.

Speakers: *Stephen G.A. Myers, Irwin Fritchie Urquhart & Moore LLC, New Orleans, LA USA; Rustin Silverstein, The Silverstein Group and X Ante, Washington, DC USA*

7:30 - 8:30 a.m.

Medical Defense and Health Law/Trial Techniques and Tactics

HOW TO USE THE AFFORDABLE CARE ACT TO CHALLENGE DAMAGES

The impact of the Affordable Care Act (ACA) on a plaintiff's ability to recover certain damages is emerging as a major issue in personal injury litigation. Recently, a federal court in Los Angeles held that it was appropriate to consider insurance benefits available under the ACA in calculating reasonable future medical expenses. In calculating future medical expenses, the court relied on defense expert testimony regarding insurance premiums and out of pocket expenses. Ultimately, the court awarded future medical expenses of \$725,147.25 as opposed to the \$2,672,026.00 claimed in the life care plan submitted by the plaintiff. The first part of the program will be a discussion of the history of the issue, including rulings to date from across the country. The remainder of the program will feature an experienced defense attorney who will discuss how to utilize the ACA to limit a plaintiff's ability to recover damages, including the use of the ACA to combat exorbitant life care plans.

Moderator: *Mark D. Hansen, Heyl, Royster, Voelker & Allen, Peoria, IL USA*

Speakers: *Sean E. Capplis, Capplis, Connors and Carroll PC, Boston, MA USA; Thomas Geroulo, Weber Gallagher Simpson Stapleton Fires & Newby LLP, Scranton, PA USA; Stephanie A. Sheps, Director of Claims, Coverys, Boston, MA USA*

7:30 - 8:30 a.m.

Product Liability

WHY SO ANIMATED? PROS AND CONS OF USING ANIMATION AND VIDEOS IN PRODUCT LIABILITY CASES

As more trials become visual experiences, it has become almost a foregone conclusion in product liability litigation that attorneys should use animation and videos. However, from the perspective of an in-house counsel, using animation could also backfire. Get a practical look, from someone who knows, on how to avoid the common pitfalls.

Speakers: *Fred E. Bourn, Butler Snow, Ridgeland, MS USA; Victoria Webster, Yamaha Motor Corporation USA, Newnan, GA USA*

8:45 - 10:15 a.m.

DOG EAT DOG AND ALL AGAINST ARBITRATION

Sponsored by the International Committee and International Arbitration Committee

States increasingly view dispute resolution as business which they want to attract by offering special courts or proceedings for international commercial disputes. Singapore has the International Commercial Court; Germany has introduced special proceedings in English for international disputes; and the Netherlands is currently working on establishing such a special court/chamber. With arbitration increasingly under fire, “forum shopping” has entered into a new dimension as businesses look for alternatives. The battle among jurisdictions and all against arbitration is open. This panel will examine the existing and draft models and more generally examine the pros and cons of specialized courts versus arbitration.

Speakers: *Manuel P. Barrocas, Barrocas Advogados Sociedade de Advogados, Lisbon, Portugal; Henning Moelle, Taylor Wessing, Frankfurt, Germany*

8:45 - 10:15 a.m.

THE NCAA AND THE COURTS – LEGAL DEVELOPMENTS AND TRENDS WHICH MAY CHANGE THE FACE OF COLLEGE SPORTS

Sponsored by the Business Litigation Committee and Trial Techniques and Tactics Committee

In recent years, the NCAA and the landscape of collegiate athletics have been under attack in different courts and regulatory forums, as well as in the media. From alleged anti-trust violations, image and likeness claims, efforts by college athletes to unionize, concussion and athlete safety litigation, allegations of academic fraud, and other issues, the plaintiffs bar and certain members of the national media have been waging a continuous frontal assault on many aspects of the student-athlete experience and its oversight by the NCAA. This panel will review some of the more significant decisions and legal developments, discuss expectations and potential future challenges, and opine on the impact that these events and trends will have on college sports at all levels.

Moderator: *Paul V. Kelly, Co-Chair; Collegiate & Professional Sports Practice Group, Jackson Lewis, P.C., Boston, MA USA*

Speakers: *Harry Johnson, III, Morgan Lewis & Bockius LLP, Los Angeles, CA USA; Oliver Luck, Executive Vice President for Regulatory Affairs, NCAA, Indianapolis, IN USA; Patricia Ohlendorf, Vice President for Legal Affairs, The University of Texas, Austin, TX USA*

LONDON/BERMUDA ARBITRATION – PRACTICAL THOUGHTS AND CONSIDERATIONS ▲

Sponsored by the Insurance and Reinsurance Committee and International Arbitration Committee

A variety of international commercial agreements, including insurance policies and reinsurance agreements written out of the Bermuda Market, specify that disputes arising from these contracts be resolved through the London or Bermuda arbitration process. In this presentation, a panel of experts will address the practical thoughts and considerations when handling these disputes, focusing on insurance agreements written under the Bermuda Form, which specifies dispute resolution through London or Bermuda arbitrations. The differences between London, Bermuda, and US arbitrations will be explored. In addition, practical considerations including the selection of arbitrators, the discovery process, pre-hearing motions, the arbitration itself, and post-arbitration issues will be addressed.

Speakers: *Rod S. Attride-Stirling, ASW Law Ltd., Hamilton, Bermuda; Mia Finsness, Markel Global, Hamilton, Bermuda; Albert C. Hilber, Swiss Re America, New York, NY USA; Steven E. Sletten, Gibson Dunn & Gutcher, Los Angeles, CA USA*

THE NARCOTICS PROBLEM: OPIOID LITIGATION AND ITS IMPACT ON MANUFACTURERS, DISTRIBUTORS, EMPLOYERS, AND STAKEHOLDERS

Sponsored by the Drug, Device and Biotechnology Committee, Employment Law Committee, Medical Defense and Health Law Committee, Toxic and Hazardous Substances Litigation Committee, and Trial Techniques and Tactics Committee

This program is an expansion of a popular program from the 2015 Annual Meeting wherein Dr. Randolph focused on the over-prescription of narcotics (how the problem developed and what it does to individuals) and a defense attorney discussed how to defend a case with this component. The panelists will explore the liabilities/potential liabilities that exist along the chain of commerce – pharmaceutical companies, distributors, prescribers, pharmacists – and how to defend them.

The presentation will include a discussion of nuisance lawsuits that have been brought on behalf of governmental entities alleging wrongdoing in connection with prescription pain medications manufactured or distributed by a number of pharmaceutical defendants. In separate actions, the City of Chicago and two California counties are suing the drug industry for its “aggressive marketing” of opioid pain medications which they allege has led to an epidemic of addiction that has cost taxpayers millions of dollars in insurance claims and other healthcare costs, criminal use of the medications, and an expanded market for heroin.

Opioid abuse issues can also have a large impact on workers’ comp claims. The panel will also address what pharmaceutical manufacturers, legislators, insurance companies, and other workers’ comp stakeholders are doing to address the risks of opioid abuse and addiction while protecting the needs of legitimate pain patients.

Moderator: *R. Douglas Vaughn, Deutsch Kerrigan, LLP, Gulfport, MS USA*

Speakers: *Bradford B. Ingram, Heyl, Royster, Voelker & Allen, Peoria, IL USA; Dr. David C. Randolph, MOHM, Milford, OH USA; Richard W. Silbert, Purdue Pharma, Stamford, CT USA; Robert Woo, Jr., King & Spalding, Atlanta, GA USA*

THE TOWERING INFERNOS – LLOYDS MARKETS, SYNDICATES, AND COVERAGE TOWERS EXPLAINED ▲

Sponsored by the Insurance and Reinsurance Committee and International Committee

Whatever the cause, recent years have seen a dramatic increase in super-catastrophic losses involving insurance claims for billions of dollars in losses. The goal of this panel presentation is to provide useful, practical information to both US and UK claims counsel in navigating the unique and often complex issues raised in representing the London market in US claims litigation.

Bill Perry will provide a historical perspective of Lloyd's and the London Market and will show how it is structured today. Dan Gerber will address diversity jurisdiction and the other complex issues which arise with respect to representation of multiple London Market insurers on the risk in US claims litigation. Julian Burling was the Counsel to Lloyd's for 15 years and will explain how Lloyd's works today, TPA/MGA relationships, claims reporting, and handling issues involving insurance coverage "towers" and how they respond to 9, 10 and 11 figures plus losses. Mr. Burling is the author of the standard text on Lloyds – *Lloyds: Law and Practice* – and is the joint editor of the *Research Handbook on International Insurance Law and Regulation*.

INSURANCE AND REINSURANCE IN A LOW CARBON ECONOMY ▲

Climate change has dramatic implications for the insurance and reinsurance industry globally. Exposure to liability risks and those who may cause damage has consequences. For those unprepared, the consequences may have a direct impact upon the model of the business enterprise. Specifically, exposure to liability risks presents challenges for insurers including but not limited to liability risk, fiscal risk, and transition risk. It is the transition risk that presents the far greater unknown. This program is intended to be a discussion not about the science or politics of climate change, but rather the financial risks in adjusting to a low carbon economy.

M&A: MERGER MANIA IN THE BERMUDA INSURANCE MARKET ▲

With the insurance market still soft and more capital chasing fewer premium dollars, there is pressure for companies to cut expenses and amalgamate. Several major mergers have taken place in the Bermuda and international insurance markets, some of these resulting from unwelcomed solicitations leading to hostile take-overs. There likely will continue to be major shake-ups in the international insurance industry. In addition to a general overview, XL Catlin will provide observations on their recent experience in the Bermuda M&A market. A 'not to be missed' discussion.

ALL CHANGE! ENGLAND COMPLETES INSURANCE LAW REVIEW ▲

English insurance law has undergone a root and branch review and in August 2016, a new regime will commence. Familiar concepts, such as avoidance for material non-disclosure, have been reformulated and will apply very differently. This is of relevance to any carrier writing insurance in the UK or reinsuring UK companies. It also informs insurers in other countries of an alternative approach to these issues. Moreover, it is likely that Bermuda will be in the process of adopting similar legislation.

EXPLAINING COMPLEX COMMERCIAL AND BUSINESS CONCEPTS TO A JURY WITHOUT PEERS

Sponsored by the Business Litigation Committee and Trial Techniques and Tactics Committee

Law firms of every size continue to focus increasingly on representing clients in business disputes. While trial lawyers routinely distill complex engineering and science to that which can be reasonably understood by members of the jury, commercial cases present trial lawyers with qualitatively different issues from those presented in trials involving injuries to the person. Jurors often lack direct first-hand experience with complex commercial and business concepts lying at the heart of business litigation. This program will suggest ways to draw on everyday experience, metaphors, and simple demonstrative exhibits to explain critical concepts central to commercial, trade secret, and shareholder disputes. From *voir dire* to summation to jury instructions, this session will translate from boardroom to courtroom.

Speakers: *Carl A. Aveni, Carlile Patchen & Murphy LLP, Columbus, OH USA; James B. Hood, Hood Law Firm, LLC, Charleston, SC USA; Paulette Robinette, JurySync, LLC, Olathe, KS USA; Edward S. Sledge, IV, Bradley Arant Boulton Cummings LLP, Birmingham, AL USA*

CLE/GENERAL INTEREST

NAVIGATING TOMORROW'S LONGEVITY ECONOMY

Sponsored by the Corporate Counsel Committee, Diversity Committee, Employment Law Committee, In-House and Law Firm Management Committee, and International Committee

Research indicates that 50 percent of children born in industrialized economies today will live 100 years. Life expectancy has increased between three and four decades over the last 100 years in Europe, North America, parts of Asia, and many other regions of the world. While longevity has dramatically increased, global fertility is precipitously declining. Some nations, most notably Germany, Russia, Italy, Spain, and Japan, are not only aging, but facing a shrinking population. Even the world's largest nation, China, is simultaneously facing a decline in its working age population and a rapid increase in the number of people over 60 years old.

Demography is destiny. The unprecedented convergence of longer lifespans and decreased fertility is transforming society and business. Joe Coughlin will present an overview of global demographic changes and the impact on public policy, business innovation, and society. This program will challenge the audience to envision a world where a 100-year lifespan and far fewer children is the new normal.

BOOK REVIEW: THE OTHER WES MOORE BY IADC OPEN FORUM SPEAKER WES MOORE

Tuesday, July 12, 9:00 - 10:30 a.m.

In December 2000, the *Baltimore Sun* ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a

series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore.

Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: *Who are you? How did this happen?*

That letter led to a correspondence and relationship that has lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had a life not unlike his own. Both had grown up in similar neighborhoods and had difficult childhoods; both were fatherless; they'd hung out on similar corners with similar crews; and both had run into trouble with the police. At each stage of their young lives, they had come across similar moments of decision, yet their choices and the people in their lives would lead them to astonishingly different destinies.

All attendees are welcome to join what is sure to be an engaging and inspiring discussion led by Book Review Co-Chairs Cliff Greene and Al Vance. This discussion will enhance your experience of hearing Wes Moore speak during the Open Forum on Sunday (see page 2).

DIRECTIONS

The closest airport to The Fairmont Southampton is L.F. Wade International Airport (BDA) formerly named Bermuda International Airport, located in St. George's, which is approximately 35 minutes from The Fairmont Southampton.

RENTAL CARS AND BUSES

Bermuda must be about the only place left in the world where visitors cannot rent automobiles. Why not? Tourist safety on unfamiliar, often narrow, winding, sharply twisting roads is cited as the main reason. Another factor is Bermuda's very small physical size and fourth-largest population per square mile in the world (after Gibraltar, Hong Kong, and Monaco). Buses and taxis are readily available for guests to get around the island. Bus tokens are available at the Concierge Desk and Hotel Front Desk.

TAXI FARE

Taxis are available at the airport, hotel, city of Hamilton, and by calling the Bermuda Taxi Association at +1.441.296.2121. Taxi fare from the airport is approximately \$60.00 USD, plus tip (1-4 persons), and is a 30 minute drive each way.

SHUTTLES

Direct shuttle service to and from the airport can be arranged by making online reservations at CEO Transport or by calling directly at +1.441.234.4366 in advance of your arrival. Shared shuttle is \$15.00 USD per person. Private transfers and island tours are also available. Rates subject to change without notice.

WEATHER

The average temperature in Bermuda in July ranges from a high of 85°F/29°C and a low of 77°F/25°C. Bermuda is warm and humid, but the island is nearly always fanned by cool sea breezes. Weather can always be unpredictable though, so we encourage you to check the forecast as the meeting gets closer at www.weather.com.

CURRENCY

The currency of Bermuda is the Bermuda dollar. There are 100 cents to the dollar. The Bermuda dollar is pegged to the US dollar on a 1-to-1 basis. Both currencies are equally acceptable at all establishments. The US dollar is therefore the currency of choice since any remaining cash is exchangeable almost anywhere in the world; a situation which is not true for the Bermuda dollar. Ensure you change all Bermuda currency, other than that required for novelty purposes, into US dollars before you leave Bermuda. There is no currency restriction in force when leaving Bermuda.

A CASH REFUND, less a \$150 processing fee, will be made if a written notice of cancellation is received by the IADC office more than thirty (30) days prior to the first day of the meeting. No reason for the cancellation need be provided for a timely notice of cancellation.

NO CASH REFUND will be made if notice of cancellation is received by the IADC office thirty (30) days or less prior to the first day of the meeting. However, if special circumstances arise before the meeting which prevents attendance, a member may request a future meeting credit. The request need to be in writing and submitted to the IADC office. It should be directed to the Finance Committee's attention and note the special circumstance which caused the cancellation. The credit request can only apply to meeting registration fees (not air, hotel, activity, tour, or special event fees) and, if approved, will be valid for use toward any IADC meeting for one (1) year from the date of the meeting for which credit is requested. A \$150 processing fee will be deducted from the total future meeting credit.

All future meeting credit requests will be considered by the Finance Committee and the decision of that Committee will be final.
