Website: <https://www.innovativescience.net/about-us/davidhschwartz/>

David H. Schwartz, Ph.D. is a principle at Innovative Science Solutions, Inc, a consulting company that provides scientific and regulatory support to industry and counsel as well as the strategic alliance ToxicoGenomica. Dr. Schwartz has worked as a consultant with insurers and legal counsel for the last 30 years to provide scientific insights in the defense of toxic tort cases. If you want to learn more about topics like how to select the best cases for a genetic defense, types of sequencing, how to determine genetic predisposition, hereditary cancer syndromes, and other aspects of courtroom relevant genomics, download our whitepaper or subscribe to our blog on our website: www.ToxicoGenomica.com.

A “scientific detective,” Dr. Schwartz excels at analyzing how science and law interact. As head of ISS’ Support to Counsel practice, he helps clients defend and support pharmaceuticals, industrial chemicals, medical devices, foods, and dietary supplements in the courts, the regulatory arena, and the market place. With a talent for communicating complex scientific information, Dr. Schwartz has become a go-to for lawyers, business professionals, and financial and investment firms. Dr. Schwartz specializes in providing strategic and tactical support to counsel in legal cases involving complex scientific issues.
