

Christopher Espinosa
Exponent, Inc.
Irvine, California

Mr. Espinosa is responsible for Exponent's graphics, video, animation, and multimedia efforts. In addition, he supports the scientific, engineering, and marketing staff in the production and presentation of technical information and demonstrative evidence. He leads a team of highly talented animators, multimedia artists, and graphics designers into new technological realms of visual communication with options such as 3D printing, 3D scanning, interactive designs, and virtual reality initiatives.

Mr. Espinosa has many years of experience in the field of visual arts and has served in such positions as Multimedia Architect for Hewlett Packard, Inc. in which he specialized in video editing, creating synchronized streaming newscasts and video delivery systems. As Senior Multimedia Animator for Lippincott Williams & Wilkins Publishers, he formed an animation department that was instrumental in taking the hard copy book world into the electronic publishing realm. Mr. Espinosa also worked as a successful freelance animator/artist for companies such as The American Heart Association, Comcast, GlaxoSmithKline, Johnson and Johnson, Wolters Kluwer Publishers, and HP Labs.
