We will examine the various interpretations of “automatic telephone dialing system” since ACA International, the anticipated further guidance from the Federal Communications Commission, how courts have treated previously-binding orders and may treat new orders from the Federal Communications Commission, and the Commission’s December 12, 2018 decision to establish a comprehensive reassigned number database and corresponding safe harbor provision. It will also look at the Court’s varying treatment of vicarious liability claims against non-calling entities.
